#### REMARKS

The applicant thanks the Examiner for disposition of the examination of claims 1 - 21. The applicant agrees that the claims presently indicated to be allowable are patentable over the references of record. However, the "allowable subject matter" delineated by the Examiner should be considered to be merely an example of what is covered by the claims. Accordingly, the applicant respectfully disagrees with the Examiner's reasons for allowance to the extent that such reasons may be construed to limit the scope of the claims in any way, be construed in any way that limits equivalents of the claimed subject matter, or in any way creates any prosecution history estoppel.

Respectfully submitted,

Berkeley Law and Technology Group, LLC
